WHO WE ARE

One Partner, The Complete Line

Bharat iON Systems Pvt. Ltd. manufactures and supplies world-class machinery for the water treatment, beverage and packaging industry. From reverse-osmosis purification to bottle blowing, filling, labelling, coding and shrink packaging — we help you produce more, reliably, with a single accountable partner from design to after-sales support.

MACHINERY RANGE

Our Machinery, In Detail

Nine core machines that together form a complete packaged-water and beverage line.

PET BOTTLE MANUFACTURING

Semi-Automatic PET Blowing Machine

Dependable auto-drop stretch blow moulding for start-ups and growing plants.

Key Specifications

Mould Cavities	1 / 2
Bottle Volume	100 ml – 2 Litre
Output	1000 – 1200 BPH
Clamping Force	8 Ton
Blowing Pressure	18 – 26 kg/cm ²
Operation	Hydro-Pneumatic

Highlights

- Auto-drop preform system
- Infrared conveyor heating
- Quick mould changeover
- Compact, low-power footprint

PET BOTTLE MANUFACTURING

Hand-Feed Automatic PET Blowing Machine

Automatic blow cycle with simple manual preform feeding — more output at low cost.

Key Specifications

Mould Cavities	2 / 4
Bottle Volume	100 ml – 2 Litre
Output	1800 – 2500 BPH
Heating	Infrared Oven
Clamping	Hydraulic
Power	12 – 18 kW

Highlights

- Fully automatic blow cycle
- Manual feed keeps cost low
- Uniform wall thickness
- Simple, robust operation

PET BOTTLE MANUFACTURING

Fully Automatic PET Blowing Machine

High-speed servo blow moulding with automatic preform loading for large plants.

Key Specifications

Mould Cavities	2 / 4 / 6
Bottle Volume	200 ml – 2 Litre
Output	Up to 4000 – 6000 BPH
Drive	Servo
Control	PLC + HMI
Feeding	Automatic Preform Feeder

Highlights

- Servo stretch-blow system
- Rotary / linear options
- Air recovery for efficiency
- Consistent high-volume output

WATER TREATMENT

Industrial RO Water Treatment Plant

Multi-stage reverse osmosis for safe, IS 10500-grade packaged drinking water.

Key Specifications

Capacity	250 – 10,000 LPH
Pre-treatment	Multimedia + Carbon + Softener
Membranes	Spiral-wound TFC
Dosing	Antiscalant + Chlorine
Body	SS / FRP
Options	UV + Ozone

Highlights

- Turnkey plant sizing
- High recovery, low rejection
- Automatic operation & controls
- Ozonation & UV polishing options

FILLING & CAPPING

Station Filler (Bottle Filling Machine)

Economical multi-head filling for small and medium bottling lines.

Key Specifications

Filling Heads	4 – 8
Bottle Volume	200 ml – 5 Litre
Output	500 – 1500 BPH
Fill Type	Gravity / Volumetric
Contact Parts	SS 304 / 316
Capping	Manual / Semi-auto

Highlights

- Hygienic stainless build
- Drip-free filling nozzles
- Adjustable fill volume
- Easy to clean & maintain

FILLING & CAPPING

Fully Automatic Rinsing, Filling & Capping Machine

A 3-in-1 monobloc that rinses, fills and caps in one hygienic, high-speed operation.

Key Specifications

Configuration	24-18-6 / customisable
Output	2000 – 6000 BPH
Bottle Volume	200 ml – 2 Litre
Rinsing	Gripper type
Capping	Magnetic torque head
Contact Parts	SS 304 / 316

Highlights

- Single synchronised monobloc
- No-bottle / no-fill sensing
- CIP-ready hygienic design
- Smooth, high-speed handling

LABELLING

Automatic Sticker Labelling Machine

Servo-controlled self-adhesive labelling for crisp, consistent branding.

Key Specifications

Output	Up to 6000 BPH
Label Material	OPP / BOPP / Paper
Bottle Shape	Round
Accuracy	± 1 mm
Control	Servo + PLC
Add-on	Online date/batch coder

Highlights

- Wrinkle-free application
- Fast, tool-less changeover
- Wrap-around & front/back
- Integrates with coding

SECONDARY PACKAGING

Automatic Shrink Wrapping Machine

Groups bottles into transport-ready multi-packs through a heat-shrink tunnel.

Key Specifications

Film	LDPE / POF
Output	Up to 12 packs / min
Pack Sizes	6 / 12 / 24
Tunnel	SS heat chamber
Control	PLC
Sealing	Web sealer

Highlights

- Web sealer + shrink tunnel
- Adjustable pack sizes
- Uniform, tight wrap
- Energy-efficient heating

CODING & MARKING

Batch Coding Machine

High-resolution coding of batch, MFG/EXP dates and MRP at full line speed.

Key Specifications

Type	Inkjet (CIJ / DOD)
Print Lines	1 – 4
Speed	Line-synchronised
Ink	Food-grade, fast-dry
Interface	Touchscreen
Codes	Text / Logo / Barcode

Highlights

- Non-contact printing
- Fast-drying inks
- Logo & barcode support
- Low maintenance

WHERE IT'S USED

Applications & Industries

Our machinery powers packaging lines across a wide range of liquids and businesses.

Packaged Drinking Water Plants

Mineral Water Bottling Units

Beverage & Juice Filling Lines

Carbonated Soft Drink Plants

Dairy & Liquid Packaging

Distributors, Dealers & OEM Buyers

WHY BHARAT iON

Built Around Your Success

**Single Accountable Partner**

One team supplies, installs and supports your entire line.

Right-Sized For You

Configurations matched to your output, budget and space.

Installation & Training

On-site commissioning and operator training included.

Genuine Spares & Service

Prompt after-sales support and authentic spare parts.

Manufacturer Pricing

Direct-from-maker value, no middlemen.

Robust, Hygienic Builds

Food-grade stainless construction built to last.

Let's build your **bottling plant.**

Tell us your target capacity and city — we'll prepare a tailored machine list and budget, then supply, install and support the complete line.
